

LATEST NON-DORMANT RELEASE OF HARVXTRA[®] ALFALFA IN FD9

- Winter-active, non-dormant FD=9.0.
- HarvXtra[®] Alfalfa gives growers the ability to better manage the yield-versus-quality trade-off. It offers more flexibility in cutting schedule to achieve improved forage quality or greater yield potential, when compared to conventional alfalfa at the same stage of maturity.
- The HarvXtra[®] technology provides unprecedented flexibility by widening cutting windows, which gives growers the option at each cutting to:
 - » Maintain their normal harvest schedules for higher-quality forage, or
 - » Delay harvest for 5-7 days for increased yield potential, without sacrificing forage quality, compared to conventional alfalfa at the same stage of maturity.
- Non-dormant HarvXtra[®] Alfalfa has on average 12-14% less lignin and 8-10% higher neutral detergent fiber digestibility (NDFD) than conventional alfalfa harvested at the same stage of maturity.
- HarvXtra[®] Alfalfa is stacked with the Roundup Ready[®] Technology for unsurpassed weed control with excellent crop safety.
- Salt tolerance at germination.

Fall Dormancy: 9

Agronomic Features

Fall Growth	Non-Dormant
Stand Persistence	Excellent
Early Seeding Vigor	Excellent
Recovery After Harvest	Fast
Leaf Retention	Excellent
Plant Color	Dark Green
Salt Tolerance	Germination
Salt Selected Variety	☑

Disease Tolerance

Bacterial Wilt	Moderate Resistance
Fusarium Wilt	High Resistance
Verticillium Wilt	Resistance
Anthraco nose (Race I)	High Resistance
Phytophthora Root Rot	High Resistance

Pest Resistance

Pea Aphid	High Resistance
Spotted Aphid	High Resistance
Blue Alfalfa Aphid	High Resistance
Stem Nematode	Resistance

Product Yield Performance

Product	Multi-Year % of Checks
6957HVXR	129
HVX840RR	111
RRALF 9RI00	109
6829R	91

In the following states, purchase and use of HarvXtra[®] Alfalfa with Roundup Ready[®] Technology is subject to a Seed and Feed Use Agreement, requiring that products of this technology can only be used on farm or otherwise be used in the United States: Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming. In addition, due to the unique cropping practices do not plant HarvXtra[®] Alfalfa with Roundup Ready[®] Technology in Imperial County, California, pending import approval and until Forage Genetics International, LLC (FGI) grants express permission for such planting.

HarvXtra[®] Alfalfa with Roundup Ready[®] Technology has pending import approvals. GROWERS MUST DIRECT ANY PRODUCT PRODUCED FROM HARVXTRA[®] ALFALFA WITH ROUNDUP READY[®] TECHNOLOGY SEED OR CROPS (INCLUDING HAY AND HAY PRODUCTS) ONLY TO UNITED STATES DOMESTIC USE. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product.
